Product description

"Tennant Plus"

Composed of corrected grain upholstery leather with thickness 1.0 - 1.2 mm, square density 740 g/m².

Application/Limitation

Approved for use throughout the accommodation as upholstery fabric for upholstered furniture.

Approved with standard non-FR polyurethane foam filling material type of density 22 kg/m³. Same type foam with higher density may also be used as filling material.

Each product is to be supplied with its manual for installation, use and maintenance.

Type Examination documentation

Test report No. 06/2984 dated 29 November 2006 from Canesis, New Zealand.

Tests carried out

Tested according to IMO FTPC Part 8 and in compliance with IMO 2010 FTP Code Ch. 8.

Marking of product

The product or packing is to be marked with name and address of manufacturer, type designation, fire technical rating, the MED Mark of Conformity and USCG approval number if applicable (see first page).
