This Certificate is valid until **2024-07-02**.

Issued at **Høvik** on **2019-07-03**

DNV GL local station:
Ulsan

Approval Engineer:
Nanna Martine Jacobsen

Notified Body
No.: **0575**

for **DNV GL AS**

Roald Vårheim
Head of Notified Body

A U.S. Coast Guard approval number will be assigned to the equipment when the production module has been completed and will appear on the production module certificate (module D, E or F), as allowed by the "Agreement between the United States of America and the EEA EFTA states on the mutual recognition of Certificates of Conformity for Marine Equipment" signed 17 October 2005.

The mark of conformity may only be affixed to the above type approved equipment and a Manufacturer's Declaration of Conformity issued when the production-surveillance module (D, E or F) of Annex B of the MED is fully complied with and controlled by a written inspection agreement with a Notified Body. The product liability rests with the manufacturer or his representative in accordance with Directive 2014/90/EU.
This certificate is valid for equipment, which is conform to the approved type. The manufacturer shall inform DNV GL AS of any changes to the approved equipment. This certificate remains valid unless suspended, withdrawn, recalled or cancelled.
Should the specified regulations or standards be amended during the validity of this certificate, the product is to be re-approved before being placed on board a vessel to which the amended regulations or standards apply.

Product description

"DAEHYUP SPRAY S-B202"
Composed of a structural steel bulkhead insulated on stiffened side with a continuous layer of spray insulation of type "Daehyup Spray S" manufactured by Daehyup Spray Co., Ltd. with nominal density 120 kg/m^3 (dry weight). The insulation is applied between and around the stiffeners following their countours, as well as filling the cavity of the stiffeners. The insulation thickness on the bulkhead is 40 mm and thickness around the stiffeners is 20 mm.

For further details see drawing listed under Type Examination documentation.

Application/Limitation

Approved for use as vertical fire retarding steel division of class A-30.

The insulation materials and any adhesives used have to be approved according to the Marine Equipment Directive and bear the Mark of Conformity. This requirement may also be applicable for surface materials used, if required by relevant rules and regulations.

Each product is to be supplied with its manual for installation and maintenance.

Type Examination documentation

Test Report No. AK2014-0026, dated 26 March 2014 from FILK, Gyeonggi-do, Korea.

Drawing no. SPRAY S-B202-01 (4 sheets) dated 23 February 2017 from Manufacturer.

Installation and Maintenance manual for DAEHYUP SPRAY dated 2 January 2019 from manufacturer.

Tests carried out

Tested according to IMO 2010 FTP Code Part 3.

Marking of product

The product or packing is to be marked with name and address of Manufacturer, type designation, fire technical rating, the MED Mark of Conformity and USCG approval number if applicable (see first page).
