

EUROPEAN UNION RECOGNISED ORGANISATION (EU RO) MUTUAL RECOGNITION TYPE APPROVAL CERTIFICATE

Certificate No:
MRA0000041

In accordance with Article 10.1 of EU Regulation 391/2009

This Certificate is issued to

Krohne Norway AS
Brevik, Norway

for

Pressure Gauges/Transmitters

with type designation(s)

P130

The product is found to comply with

EU RO Mutual Recognition Technical Requirements for Pressure Gauges – Transmitters

Intended service

Pressure transmitters for use in control, alarm, monitoring and instrumentation systems subject to classification.

See product description on page 2 for further details.

Temperature [°C]: -60°C to 70°C
Vibration: ±1.0 mm / 0.7 g
EMC: General power distribution zone
IP Code: IP66 / IP68 (35 m)

This is to certify:

that the Product referred to herein has been inspected for the Manufacturer, pursuant to the relevant requirements of the European Union Recognised Organisation Mutual Recognition procedure, required by Article 10.1 of EU Regulation 391/2009, and has been found in accordance with those requirements.

This Certificate is valid until **2029-01-30**.

Issued at **Høvik** on **2024-01-31**

DNV local unit: **Sandefjord**

for **DNV**

Approval Engineer: **Ståle Sneen**

.....
Frederik Tore Elter
Head of Section

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

LEGAL DISCLAIMER: Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV AS, its parent companies and their subsidiaries as well as their officers, directors and employees ("DNV") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to 300,000 USD.

Form code: MRTA 201

Revision: 2022-12

Product description

P130-0107 absolute pressure transmitter made of titanium grade II or stainless-steel grade 316L/317.

Model codes:

P130-0107-00: Standard connector (Ti) with titanium enclosure
P130-0107-01: G1/2 connector (Ti) with titanium enclosure
P130-0107-02: G1/4 connector (Ti) with titanium enclosure
P130-0107-03: G1/2 connector (316L) and 317 enclosure
P130-0107-04: G1/2 connector (317) and 316L enclosure
P130-0107-05: G1/4 connector (316L) and 317 enclosure
P130-0107-06: G1/2 connector (316L) with 316L enclosure
P130-0107-07: G1/4 connector (316L) with 316L enclosure

Manufactured by

Xi'an Chinastar M&C LTD, No 25 Gaoxin Rd., Xi'an, P.R. of China.

Application/Limitation

The Type Approval covers hardware listed under product description.

Pressure transmitters for use in control, alarm, monitoring and instrumentation systems subject to classification. The intended service is level gauging applications.

Ex-certification is not covered by this certificate. For Ex-verification, reference is made to IECEx Certificate of Conformity number IECEx PRE 18.0055X. Ex installations are to be approved in each case according to the rules of the classing EU RO and valid Ex-certificate.

The pressure transmitter P130 shall be powered by a 24 Vdc power supply or DC/DC-converter of approved type.

Type Approval documentation

Marking of product

The products to be marked with:

- manufacturer name
- type number (as listed under Product description)
- serial number
- date of manufacture
- power supply ratings
- IP rating
- class of accuracy

Other conditions

The sensors have been verified for compliance with EU Mutual Recognition Technical Requirements for Pressure Gauges - Transmitters version 0.2 dated 2023-01-01, including IACS Unified Requirements E10 Rev.7 and Rev.8.

The technical requirements do not specify any special design requirements for the cable. The pressure sensors are delivered with an integrated seawater proof cable (4 x 0.38 mm²) that has been reviewed and found fit for purpose.

Environmental test parameters:

Temperature: -60°C and 70°C
Vibration: ±1.0 mm / 0.7 g
Humidity: 95% RH @55°C
EMC: General power distribution zone
Enclosure: IP66 / IP68 (35 m)
(according to IEC 60529)

DNV location classes:

Temperature: D
Vibration: A
Humidity: B
EMC: A
Enclosure: C / D (35 m)

Periodical assessment

The scope of the periodical assessment is to verify that the conditions stipulated for the type are complied with, and that no alterations are made to the product design or choice of systems, software versions, components and/or materials.

The main elements of the assessment are:

- Ensure that type approved documentation is available
- Inspection of factory samples, selected at random from the production line (where practicable)
- Review of production and inspection routines, including test records from product sample tests and control routines

- Ensuring that systems, software versions, components and/or materials used comply with type approved documents and/or referenced system, software, component and material specifications
- Review of possible changes in design of systems, software versions, components, materials and/or performance, and make sure that such changes do not affect the type approval given
- Ensuring traceability between manufacturer's product type marking and the type approval certificate

Periodical assessment is to be performed annually and at renewal of the certificate.

Generic Statement for EU RO MR Type Approval Certificate

When a product is presented with this EU RO MR Type Approval Certificate for given application, its acceptability with regards to the limitations stated in the certificate conditions defined in 1b, 1c and 1d of the applied Technical Requirement will be evaluated by the EU RO in charge of classing the ship or being in charge of the unit/system certification.

In accordance with Article 10 of Regulation (EC) No 391/2009 of the European Parliament and of the Council of 23 April 2009 "on common rules and standards for ship inspection and survey organizations", the following organizations, recognized by the EU on this date, have agreed on the technical and procedural conditions under which they will mutually recognize this certificate:

- American Bureau of Shipping (ABS);
- Bureau Veritas (BV);
- China Classification Society (CCS);
- Croatian Register of Shipping (CRS);
- DNV;
- Indian Register of Shipping (IRS);
- Korean Register (KR);
- Lloyd's Register Group Ltd. (LR);
- Nippon Kaiji Kyokai General Incorporated Foundation (ClassNK);
- Polish Register of Shipping (PRS);
- RINA Services S.p.A. (RINA);
- Russian Maritime Register of Shipping (RS).

The scheme for the mutual recognition of class certificates for materials, equipment and components laid down by Article 10(1) of Regulation (EC) No 391/2009 is only enforceable within the Union in respect of ships flying the flag of a Member State. As far as foreign vessels are concerned, the acceptance of relevant certificates remains at the discretion of relevant non-EU flag States in the exercise of their exclusive jurisdiction, notably under the United Nations Convention on the Law of the Sea (UNCLOS). (In accordance with COMMISSION IMPLEMENTING REGULATION (EU) No 1355/2014 amending Regulation (EC) No 391/2009 - recital (25)).
