

TYPE APPROVAL CERTIFICATE

This is to certify:**That the Loading Computer System**with type designation(s)
TSB Supercargo

Issued to

Total Soft Bank Co., Ltd.
Busan, Republic of Koreais found to comply with
DNV GL rules for classification – Ships and offshore units**Application :****Type approved for calculation and control of loading conditions with the following functions:**

- * **Check of shear force and bending moments against limit curves**
- * **Check of intact stability by direct calculation**
- * **Check of intact and damage stability against limit curve**

This Certificate is valid until **2020-01-31**.Issued at **Høvik** on **2016-02-01**DNV GL local station: **Busan**Approval Engineer: **Nils Heimvik**for **DNV GL**

Inge Seglem
Head of Section

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Product description

Available Options of the Software:

Hull Strength:

For prepared loading conditions;

1. Calculation of still water bending moment and shear force, and control against limit values.

Stability:

For prepared loading conditions;

1. Calculation of draft, trim, righting levers (GZ) and metacentric height (GM)
2. Calculation and check of the intact stability criteria of 2008 IS Code Part A Ch.2.2 and 2.3
3. Calculation and check of compliance with pre-stored limit curves for intact and damage stability

Approval conditions

1. The loading computer is considered as supplementary to the approved stability booklet and/or loading manual onboard.
2. Specific approval and certification is required for each vessel at which the program is installed. Documentation to be submitted for approval is listed in DNV GL Rules for Ships Pt.6 Ch.4 Sec. 7. The identification of software will be recorded in the certificate.
3. The program is either to be installed on one approved hardware (type approved or case-by-case approved), or it is to be installed on two nominated computers. If two nominated computers are available, approval of hardware may be waived (Ref. DNV GL Rules Pt.6 Ch.4 Sec.7).

Type approval documentation

- DNV Id. No. 29314 "MY MATURITY" Strength-Intact stability
- DNV Id. No. 26253 "WAN HAI 605" Strength-Intact Stability

Limitations

The type approval is valid only for the calculation results. I.e. the type approval is a confirmation that the software is able to give correct results provided that the stored characteristic data of the vessel and the user's input is correct.

Job Id: **262.1-012050-2**
Certificate No: **TAA00000AK**

Renewal assessment

The scope of the retention/renewal assessment is to verify that the conditions stipulated for the type approval is complied with and that no alterations are made to the product or software design.
The main elements of the assessment to be dealt with:

- Ensure that documentation for the type approval is available.
- Ensure that the type approved software complies with the referenced documents and specifications.
- Review of possible changes in design and performance of the type approved software version.
- Ensure traceability between manufacturer's product marking and the DNV GL Type Approval Certificate.

The assessment is to be performed only upon renewal, and by the unit issuing the type approval certificate.
