

# TYPE APPROVAL CERTIFICATE

## This is to certify:

**That the Control and Monitoring System**

with type designation(s)

**M1000C, M1000D, M2000B, M2000C, M2100, M0500, M0600**

Issued to

**SELCO**

**Roskilde Sjælland, Denmark**

is found to comply with

**DNV GL rules for classification – Ships, offshore units, and high speed and light craft**

## Application :

**Product(s) approved by this certificate is/are accepted for installation on all vessels classed by DNV GL.**

### Location classes:

**Temperature B**

**Humidity B**

**Vibration A**

**EMC B**

**Enclosure Required protection according to the Rules to be performed before installation on board**

Issued at **Høvik** on **2017-04-26**

This Certificate is valid until **2019-06-30**.

DNV GL local station: **Copenhagen**

for **DNV GL**

Approval Engineer: **Nils Jarem**

.....  
**Odd Magne Nesvåg**  
**Head of Section**

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Job Id: **262.1-004227-5**  
Certificate No: **TAA000014N**

### **Product description**

|                      |                                 |
|----------------------|---------------------------------|
| Alarm Annunciator    | M1000D, M1000C (SMD components) |
| Engine Controller    | M2000C (SMD components)         |
| Engine Controller    | M2000B                          |
| Emergency Controller | M2100                           |
| Tacho Detector       | M0500                           |
| Shutdown unit        | M0600                           |

### **Approval conditions**

The Type Approval covers hardware listed under Product description. When the hardware is used in applications to be classed by DNV GL, documentation for the actual application is to be submitted for approval by the manufacturer of the application system in each case. Reference is made to DNV GL rules for classification of ships Pt.4 Ch.9 Control and monitoring systems.

### **Type Approval documentation**

#### **Tests carried out**

Applicable tests according to Standard for Certification 2.4, April 2006

#### **Marking of product**

The products to be marked with:

- manufacturer name
- model name
- serial number
- power supply ratings

Job Id: **262.1-004227-5**  
Certificate No: **TAA000014N**

### **Periodical assessment**

The scope of the periodical assessment is to verify that the conditions stipulated for the type are complied with, and that no alterations are made to the product design or choice of systems, software versions, components and/or materials.

The main elements of the assessment are:

- Ensure that type approved documentation is available
- Inspection of factory samples, selected at random from the production line (where practicable)
- Review of production and inspection routines, including test records from product sample tests and control routines
- Ensuring that systems, software versions, components and/or materials used comply with type approved documents and/or referenced system, software, component and material specifications
- Review of possible changes in design of systems, software versions, components, materials and/or performance, and make sure that such changes do not affect the type approval given
- Ensuring traceability between manufacturer's product type marking and the type approval certificate

A renewal assessment will be performed at renewal of the certificate.
