Job Id: **262.1-006667-23**
Certificate No: **TAA00001YW**

Product description

The Type Approval covers SB 520 – Sounder Booster Module.

Place of manufacture

Tyco Fire & Security Czech Republic s.r.o.
Ulice Osvobození 363, Ráječko
Czech Republic

Approval conditions

The Type Approval covers hardware listed under Product description. When the hardware is used in applications to be classed by DNV GL, documentation for the actual application is to be submitted for approval by the manufacturer of the application system in each case. Reference is made to DNV GL rules for classification of ships Pt.4 Ch.9 Control and monitoring systems.

Application/Limitation

Approved for use in conjunction with type approved fire alarm central units manufactured by THORN SECURITY LTD.
System application and location modules to be in accordance with relevant parts of the Rules.

Type Approval documentation

Tests carried out

Applicable tests according to Standard for Certification No. 2.4, April 2001

Marking of product

The following marking is found on the product label: SB520 – 120-147-726.

Periodical assessment

The scope of the periodical assessment is to verify that the conditions stipulated for the type are complied with, and that no alterations are made to the product design or choice of systems, software versions, components and/or materials.

The main elements of the assessment are:

- Ensure that type approved documentation is available
- Inspection of factory samples, selected at random from the production line (where practicable)
- Review of production and inspection routines, including test records from product sample tests and control routines
- Ensuring that systems, software versions, components and/or materials used comply with type approved documents and/or referenced system, software, component and material specifications
- Review of possible changes in design of systems, software versions, components, materials and/or performance, and make sure that such changes do not affect the type approval given
- Ensuring traceability between manufacturer's product type marking and the type approval certificate

Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate.
