

TYPE APPROVAL CERTIFICATE

This is to certify:**That the Low Voltage Cable**

with type designation(s)
LEONI L SeaLine® LI6Y FEP insulated connection wires

Issued to

LEONI Special Cables GmbH
Friesoythe, Niedersachsen, Germany

is found to comply with

DNV GL rules for classification – Ships, offshore units, and high speed and light craft

Application :

Product(s) approved by this certificate is/are accepted for installation on all vessels classed by DNV GL.

Rated voltage (V) 150/250

Temp. class (°C) 180

Issued at **Hamburg** on **2020-01-17**

This Certificate is valid until **2025-01-16**.

DNV GL local station: **Hamburg CMC**

Approval Engineer: **Carsten Hunsalz**

for **DNV GL**

.....
Arne Schaarmann
Head of Section

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Product description

LEONI L SeaLine® LI6Y FEP insulated connection wires

Rated voltage: 150/250 V
Maximum operating conductor temperature: up to 180° C (acc. DIN VDE 0207-6)
Environmental temperature: -65°C up to 200 °C
Conductor: Stranded copper, plain, tinned, silvered or nickel-plated
Insulation: FEP

Number of cores: Nominal cross section mm²

1 or 2 twisted or 3 twisted 0.5 to 50

Application/Limitation

FEP insulated connection wires for marine and offshore applications
for installation only on and near shipboard engines

Type Approval documentation

Specification: Version 2019-06-24 / F45052-F7000

Test report :
Leoni 2019-09-26 Prüfdokumentation L45551-D21-G17

Tests carried out

Standard	Release	General description	Limitation
IEC 60092-350	2018-11	Electrical installations in ships - Part 350: General construction and test methods of power, control and instrumentation cables for shipboard and offshore applications	
IEC 60228	2004-11	Conductors of insulated cables	
DIN VDE 0207-6	2004-10	Insulating and sheathing compounds for cables and flexible cords - Fluorinated polymers	Insulation 6YI1
UL Style		11193 and 1901	
IEC 60332-1-2	2015-07	Tests on electric and optical fibre cables under fire conditions – Part 1-2: Test for vertical flame propagation for a single insulated wire or cable –Procedure for 1 kW pre-mixed flame	

Job Id: **262.1-031456-1**
Certificate No: **TAE00003UV**

Marking of product

Example:

"sequential length in metres" * LEONI L SeaLine® * LI6Y 1X1.5 150V/250V * lot number

Periodical assessment

The scope of the periodical assessment is to verify that the conditions stipulated for the Type approval are complied with and that no alterations are made to the product design or choice of materials.

The main elements of the assessment are:

- Inspection on factory samples, selected at random from the production line (where practicable)
- Results from Routine Tests (RT) checked (if not available tests according to RT to be carried out)
- Review of type approval documentation
- Review of possible change in design, materials and performance
- Ensuring traceability between manufacturer's product type marking and Type Approval Certificate.

Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate.
