Jörg Kallies
Head of Section

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Product description

The "CPS 6800 chemical protective clothing (Type 1b)" is classed as a Type 1b gas-tight chemical protective suit with a breathable air supply worn outside the chemical protective suit.

To be used with positive pressure breathing apparatus complying with EN137 and the use of a full face mask, alternatively permanently attached Dräger Panorama Nova full face mask is recommended.

A suitable safety helmet is required.

The Umex suit material provides good flexibility and mechanical strength and is designed for working in cold environments or with cryogenic media.

The suit has a gas-tight polyurethane closure system. The gloves and boots are connected gas-tight and can easily be replaced.

Via the integrated PT 120 L control valve the suit can be ventilated from the outside.

For further details please see the documents listed under Type Approval documentation.

Application/Limitation

As required by SOLAS 1974 as amended, Ch. II-2 Reg.19.3.6.1 and IMO IBC Code, Ch.14.1.

The applicant's instructions for use, storage, transport, maintenance and the applicant's recommendations and restrictions for use are to be complied with.

The CPS 6800 suit is to be worn in conjunction with a self contained breathing apparatus approved according to ISO 23269-3:2011 and an approved positive pressure full face mask according to EN 136.

Manufactured by Dräger Chomutov s.r.o., Prazska 5494, Chomutov, Czech Republic.
