This product may be available in various colours. Please contact your local PPG Coatings representative for details.

Manufactured by

PPG SSC Co., Ltd., 19 Yeocheon-ro 217 Beon-gil, Nam-gu, 680-090, Ulsan, Korea

DNV GL local station: Ulsan

Responsibility

The Company (stated on the front page of this Certificate) takes the responsibility that both design and production are in compliance with Rules, Standards and/or Regulations listed on page 1 of this certificate.

Application/Limitation

The issuance of this certificate is solely connected to the control of the Anti-Fouling System, AFS, with regard to compliance with the International Convention on the Control of Harmful Anti-Fouling Systems on Ships.

It does not cover verification of surface preparation, corrosion protection, fire, health and safety precautions, durability of the AFS or environmental properties other than regulated by the Convention.

Type Approval documentation

Tests carried out

Type Testing carried out according to **Type Approval documentation**, with the following test results (ref. Test Report from PRA, UK of 2008-10-09):

- **SIGMA NEXEON™ 710** (Redbrown): 0,0041% tin (No TBT detected)

Marking of product

Product/package shall be marked with *manufacturer's name*; **PPG SSC Co., Ltd., Ulsan, Korea**, and *type designation*; **SIGMA NEXEON™ 710**.

The marking is to be carried out in such a way that it is visible, legible and indelible. The marking of product is to enable traceability to the DNV GL Type Approval Certificate.

Periodical assessment

The scope of the Periodical Assessment is to verify that the conditions stipulated for the Type Approval is complied with and that no alterations are made to the product design or choice of materials.

Periodical Assessment to be performed after 2 and 3.5 years (Certificate Retention) and at renewal after 5 years (Certificate Renewal).

The main elements of the Periodical Assessment are to:

- Ensure that **Type Approval documentation** is available.
- Review design, materials, production process, and performance with respect to possible changes, in order to ensure compliance with **Type Approval documentation** and/or referenced material specifications.
- Ensure traceability between manufacturer's product marking and DNV GL Type Approval Certificate.
