Product description

Man Over Board Retrieval Systems;
Dacon Rescue Scoop (RSA/RSB/RSC)
Dacon Rigid Scrambling Net
Dacon Rescue Frame
Dacon Rescue Basket (RB-300/RB-250)

Please refer to relevant Dacon product information/brochures on details for the various equipments.

ERRVA - Statement:

Dacon equipments are accepted and approved for fitting aboard *Emergency Response and Rescue Vessels (ERRVs)* that are certified by the *UK Maritime & Coastguard Agency*, in accordance with *The UK Oil & Gas ERRV Survey Guidelines*, and it is confirmed that the following equipment complies with the relevant sections of those Survey Guidelines:

Equipment	Survey Guidelines Section/Title
Dacon Rigid Scrambling Net	5.2.2 Recovery from the Sea by Climbing Aids
Dacon Rescue Scoop	5.2.3 Power-Assisted Methods of Recovering Survivors
Dacon Rescue Basket	5.2.4 Temporary Refuge in the Sea
Dacon Rescue Frame	5.3.8 FRC Equipment (e) A net or cradle system for recovery of persons from the water.
	5.4.4 Daughter Craft (DC)

NMD/ Sjøfartsdirektoratet

With reference to REG 1991-10-16 No. 853 we confirm that **Dacon Rescue Scoop** is considered as approved as rescue equipment in accordance with § 17(4). A Rescue Basket alone is not sufficient to meet the requirement.

The crane operating mentioned equipment shall meet the recommendations given by the maker. In addition the following applies:

- Slewing ring shall be dimensioned for being used at 20° heel.
- The runner ("mantel") shall be as light weighted as possible. However, a plummet / ball etc. to pull the wire is not accepted.
- Requirements given in REG 19897-01-17 No. 4 shall be met.

Application/Limitation

The equipment shall be installed, operated and maintained as per Dacon's recommendations.

Operating limitation of the equipment shall also be as per Dacon's recommendations.

Type Examination documentation

Inspection intervals equipment

Dacon's equipment shall be inspected regularly as per Dacon's recommendations.

Marking of product

Product(s) shall be marked with the *manufacturer's name*; **Dacon AS, Norway**, *type designation*, *serial number* and *production year*.

The marking is to be carried out in such a way that it is visible, legible and indelible. The marking of product is to enable traceability to the DNV GL Type Examination Certificate.

Job Id: **262.1-014936-2**
Certificate No: **TAK000017G**

Periodical assessment

The scope of the Periodical Assessment is to verify that the conditions stipulated for the Type Examination is complied with and that no alterations are made to the product design or choice of materials.

Periodical Assessment to be performed after 2 and 3.5 years (Certificate Retention) and at renewal after 5 years (Certificate Renewal).

The main elements of the Periodical Assessment are to:

- Ensure that **Type Examination documentation** is available.
- Review design, materials, production process, and performance with respect to possible changes, in order to ensure compliance with **Type Examination documentation** and/or referenced material specifications.
- Ensure traceability between manufacturer's product marking and the DNV GL Type Examination Certificate.
