Product description

BELZONA® 1111 (Super Metal): Two - component epoxy resin reinforced with silicon steel alloy

Application/Limitation

Machinable, paste grade system for repair and rebuild of machinery and components.

The application has to be in accordance with the work instruction of manufacturer and the rules of classification.

The application has to be carried out under supervision of the resin manufacturer or an authorized representative recognized by the Society.

This approval does not relieve from material test and final testing of finished product, as far as required. Every test on the basis of this approval has to be notified in written form to this Society.

Any application which may affect the class of the vessel has to be announced and agreed with the Society.

Acknowledged production site:

Belzona Polymeric Ltd.; Claro Road, Harrogate; HG1 4DS; United Kingdom

Type Approval documentation

Tests carried out

According to type approval documentation

Marking of product

The product is to be marked with manufacturer's name or trademark and type number identification.

Periodical assessment

The scope of the periodical assessments is to verify that the conditions stipulated for the certification are in compliance with the Type Approval documentation and no alterations are made to the product design or choice of materials.

Periodical assessments will be carried out bi-yearly(Certificate Retention) and at renewal after 5 years (Certificate Renewal).

When possible, this assessments may be harmonised with normal surveys for product certification and / or other surveys and audits carried out.
