Certificate No: **TAK00001N5**
File No: **335.30**
Job Id: **262.1-018992-2**

Product description

Organotin-free self-polishing hydrolysing anti-fouling paint;
— **EgisPacific(L)**

Colours:

The product may be available in various colours. Please contact the local KCC Corp. representative for details.

Chemically active ingredients:

CAS No. 1317-39-1 Copper(1)oxide
CAS No. 14915-37-8 Copper pyrithione

Application/Limitation

The issuance of this certificate is solely connected to the control of the Anti-Fouling System, AFS, with regard to compliance with the International Convention on the Control of Harmful Anti-Fouling Systems on Ships.

It does not cover verification of surface preparation, corrosion protection, fire, health and safety precautions, durability of the AFS or environmental properties other than regulated by the Convention.

Type Approval documentation

Tests carried out

Type Testing carried out in accordance with **Type Approval documentation**, with the following test result (Test Report from Korea Testing & Research Institute of 2015-02-03):

— **EgisPacific(L)**: <0.0184 % tin; no TBT detected

Marking of product

Products shall be marked with *manufacturer's name*; **KCC Corporation (Ulsan Plant), Ulsan, Korea** and *type designation*.

The marking is to be carried out in such a way that it is visible, legible and indelible. The marking of product is to enable traceability to the DNV GL Type Approval Certificate.

Periodical assessment

The scope of the Periodical Assessment is to verify that the conditions stipulated for the Type Approval is complied with and that no alterations are made to the product design or choice of materials.

Periodical Assessment to be performed after 2 and 3.5 years (Certificate Retention) and at renewal after 5 years (Certificate Renewal).

The main elements of the Periodical Assessment are to:

- Ensure that **Type Approval documentation** is available.
- Review design, materials, production process, and performance with respect to possible changes, in order to ensure compliance with **Type Approval documentation** and/or referenced material specifications.
- Ensure traceability between manufacturer's product marking and the DNV GL Type Approval Certificate.
