

TYPE APPROVAL CERTIFICATE

This is to certify:**That the Protective Coating Systems - Offshore Structures**with type designation(s)
RAINBOPRIME 801 (3x200 µm)

Issued to

Yung Chi Paint & Varnish Mfg. Co. Ltd.
Kaohsiung, Taiwanis found to comply with
NORSOK Standard M-501 Surface preparation and protective coating, Edition 6, February 2012**Application :****For use in Coating System No. 7A in accordance with the stated Standard.**Issued at **Høvik** on **2019-07-01**This Certificate is valid until **2024-06-30** .DNV GL local unit: **Kaohsiung**for **DNV GL**Approval Engineer: **Gisle Hersvik**

Rikard Törnqvist
Head of Section

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Product description

RAINBOPRIME 801 (3x200 µm)

Description of the Coating system, tested on bare steel;
— **RAINBOPRIME 801** Anti-corrosion primer based on epoxy resin

The tested coating system is defined in accordance with NORSOK M-501.

The testing has been performed with basis in test requirements of NORSOK M-501 (for Coating system no. 7A, for protection of carbon and stainless steel in the splash zone).

Coating system no. 7A is defined in NORSOK M-501, Surface preparation and protective coating, Rev. 6, February 2012, as two-component epoxy or polyester based coating, a minimum of 3 coats and a total DFT of min. 600 µm.

For details on Coating system no. 7A, please refer to NORSOK M-501, Rev. 6, February 2012.

Application/Limitation

This approval is solely connected to the corrosion prevention properties of the coating system. The approval does not include any evaluation of toxicity, contamination, pollution, or fire technical aspects.

This Type Approval certificate is not valid for designs, components, equipment, systems or products which are subject to classification by DNV GL.

Type Approval documentation

Tests carried out

Type Testing carried out according to **Type Approval documentation**, ref.:

- Test and Verifying Center for Ship Materials on Coatings and Paintings Technical Report No. JX19106 "YCP-4: RAINBOPRIME 801 200µm+RAINBOPRIME 801 200µm+ RAINBOPRIME 801 200µm" of 2019-04-01.

Marking of product

Products forming parts of the coating system shall be marked with *manufacturer's name*; **Yung Chi Paint & Varnish Mfg. Co. Ltd., Taiwan** and *type designations*.

The marking is to be carried out in such a way that it is visible, legible and indelible. The marking of product is to enable traceability to the DNV GL Type Approval Certificate.

Periodical assessment

The scope of the Periodical Assessment is to verify that the conditions stipulated for the Type Approval is complied with and that no alterations are made to the product design or choice of materials.

Periodical Assessment to be performed after 2 and 3.5 years (Certificate Retention) and at renewal after 5 years (Certificate Renewal).

The main elements of the Periodical Assessment are to:

- Ensure that **Type Approval documentation** is available.
- Review design, materials, production process, and performance with respect to possible changes, in order to ensure compliance with **Type Approval documentation** and/or referenced material specifications.

Job Id: **262.1-031746-1**
Certificate No: **TAK00001R7**

- Ensure traceability between manufacturer's product marking and the DNV GL Type Approval Certificate.

This certificate is only valid if required periodical assessments are carried out with satisfactory results. To check the validity of this certificate, please look it up in <https://approvalfinder.dnvgl.com>
