- A high-solid, chemically hydrolysed tin-free self-polishing anti-fouling paint based on acrylic zinc resin technology

Colours:
The product may be available in various colours. Please contact the T&H Novel Materials representative for details.

Active ingredients:
CAS No. 1317-39-1 Cuprous oxide

Manufactured by

T&H Novel Materials Co., Ltd., Quanzhou City, Tangxi Industrial Zone, Wanhong Road, Luojiang District, Fujian Province, P.R. China

DNV local station: Guangzhou

T&H Novel Materials Co., Ltd. Huian Branch, No. 2 Huisheng Road, Quanhui Petrochemical Industrial Zone, Dongqiao Town, Hui'an County, Fujian Province, P.R. China

DNV local station: Guangzhou

Responsibility

The Company (stated on the front page of this Certificate) takes the responsibility that both design and production are in compliance with Rules, Standards and/or Regulations listed on page 1 of this certificate.

Application/Limitation

The product complies with the International Convention on the Control of Harmful Antifouling Systems on Ships as adopted by IMO October 2001 (IMO document AFS/CONF/26), amended June 2021.

The issuance of this certificate is solely connected to the control of the Anti-Fouling System, AFS, with regard to compliance with the Convention. It does not cover verification of surface preparation, corrosion protection, fire, health and safety precautions, durability of the AFS or environmental properties other than regulated by the Convention.

Type Approval documentation

Tests carried out

Type Testing carried out in accordance with **Type Approval documentation**, ref. Test Report No. JX16034 from Test and Verifying Center for Ship Materials on Coatings and Paintings of 2016-01-26, with the following test result:

- **XH5905**: 0.0076 % tin (No TBT-compounds detected)

Marking of product

Product shall be marked with *manufacturer's name*: **T&H Novel Materials Co., Ltd., China** and *type designation:* **XH5905**.

The marking is to be carried out in such a way that it is visible, legible and indelible. The marking of product is to enable traceability to the DNV Type Approval Certificate.

Periodical assessment

The scope of the Periodical Assessment is to verify that the conditions stipulated for the Type Approval is complied with and that no alterations are made to the product design or choice of materials.

Periodical assessments (for Certificate Retention / Certificate Renewal) shall be performed according to DNV-CP-0338.

This certificate is only valid if required Periodical assessments are carried out with satisfactory results. To check the validity of this certificate, please look it up in https://approvalfinder.dnv.com
