Product description

Four stroke diesel engine
Cylinder bore: 225 mm
Piston stroke: 300 mm
No. of cylinder: 5, 6, 7, 8 in-line

Additional Place of Production

Anqing CSSC Diesel Engine Co., Ltd
Xingye Road, 3.9km² Industrial Park, Anqing Economic Technology Development Zone,
Anqing, Anhui Province P.R.China.

Application/Limitation

The approval is valid for auxiliary duty and is based on the following main data:

Mean indicated pressure, [bar]	22.3	22.3	22.0
Max. cylinder pressure, (bar):	145	145	150
Rated cont. output, [kW/cyl.]:	142	148	175
Corresponding to, [rpm]:	720	750	900

Marking of product

The product is to be marked with the manufacturer's name or trademark and type number identification.

Periodical assessment

For retention of the Type Approval, DNV shall perform a Periodical Assessment every second year and before the expiry date of this certificate.

The objective of the Periodical Assessment is to verify that the conditions for the Type Approval are not altered since the Type Approval certificate was issued.

The main scope of the assessment normally includes:

- Verification of the company's production and quality system w.r.t. ensuring continued consistent production of the Type Approved products at the Type Approval applicant's own premises and at other companies that are given the responsibility for manufacturing of the products.
- Review of the TA documentation and that this is still used as basis for the production
- Review of possible changes to the design, the material and the performance of the product
- Verification of the product marking.

In cases where the Type Approved product is manufactured at other companies, the Periodical Assessment shall verify that the Type Approval applicant has a quality control system for consistent production at their licensees/subcontractors. Furthermore Periodical Assessment shall be carried out randomly at these companies.

Other conditions
