Oddvar Deinboll
Head of Section

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Product description

Single stage step-up gear for compressor drive.

Application/Limitation

The gearboxes have been type approved for two ratios:

Ratio	Max input torque	Max power	Input speed	Application factor
1:6,79 (24/163)	713 Nm	265 kW	3550 rpm	1,3
1:3,17 (29/92)	2555 Nm	950 kW	3550 rpm	1,3
1:3,17 (29/92)	3632 Nm	1350 kW	3550 rpm	1,2

Other conditions

The type approval does not cover connection to external shafts.

Alarm and monitoring of the gearbox is not covered by this type approval and must be submitted for approval in each case.

Type Approval documentation

Marking of product

The product to be marked with the manufacturer's name or trademark and type number identification.

Periodical assessment

For retention of the Type Approval, a DNV GL surveyor shall perform an assessment after 2 years and after 3.5 years to verify that the conditions of the type approval are complied with. A renewal assessment will be performed at renewal of the certificate.

The objective of the Periodical Assessment is to verify that the conditions for the Type Approval are not altered since the Type Approval Certificate was issued.

In cases where the Type Approved product is manufactured at other companies, the Periodical Assessment shall verify that the Type Approval applicant has a quality control system for consistent production at their licensees/subcontractors. Furthermore Periodical Assessment shall be carried out randomly at these companies.
