Product description

Anti vibration rubber mounts
EvoLo 631 Grade AA, AB, AC, A, B, C, D, E, F

Application/Limitation

The flexible mounts are approved for mounting of machinery including diesel engines, within the maker's limitations.

Type Approval documentation

Tests carried out

Test reports dated 01-11-04.
TNO test report dated 2006-04-06 for size 631.

Marking of product

The product to be marked with manufacturer's name or trademark and type number identification.

Periodical assessment

For retention of the Type Approval, a DNV GL surveyor shall perform an assessment after 2 years and after 3.5 years to verify that the conditions of the type approval are complied with. A renewal assessment will be performed at renewal of the certificate.

The objective of the Periodical Assessment is to verify that the conditions for the Type Approval are not altered since the Type Approval Certificate was issued.

In cases where the Type Approved product is manufactured at other companies, the Periodical Assessment shall verify that the Type Approval applicant has a quality control system for consistent production at their licensees/subcontractors. Furthermore Periodical Assessment shall be carried out randomly at these companies.
