Product description
Anti-vibration chocks, anti-shock and vibration mounts

Application/Limitation
The mountings are approved for use in diesel engine installations for propulsion and auxiliary duty and as mountings for reduction gears and other auxiliary machinery with limitations as given in the Product Data information available on the web site http://trelleborg.com/industrialavs under section "Products"

Marking of product
The product to be marked with manufacturer's name or trademark and type number identification.

Periodical Assessment
For retention of the type approval, a DNV GL surveyor shall perform an assessment after 2 years and after 3.5 years, to verify that the conditions of the type approval are complied with. A renewal assessment will be performed at renewal of the certificate.

In cases where the type approved product is manufactured at other companies, the periodical assessment shall verify that the type approval applicant has a quality control system for consistent production at their licensees/subcontractors. Furthermore, periodical assessment shall be carried out randomly at these companies.

Other conditions
No product certificate required.

Installation, maintenance and inspection of the mounts to be done according to the makers instructions.
