High speed gearbox and output pinion, driving a slewing gear

Application/Limitation

Applied as steering gear for thruster with the following load profile:

Type	Output pinion load [kNm]	Load profile Share [%]	Load profile Cycles [-]	Pinion speed [rpm]
EC803	8,750	1%	1E3	13,5
	7,000	2%	1E5	21,4
	4,422	97%	5E7	4,3
ECS1573FA	16,633	1%	1E3	11,8
	13,307	2%	1E5	18,8
	8,116	97%	5E7	3,8

Type Approval documentation

Marking of product

The product to be marked with manufacturer's name or trademark and type identification

Periodical assessment

For retention of the Type Approval, a DNV surveyor shall perform a survey every second year and before the expiry date of this certificate to verify that the conditions of the type approval are complied with.

The objective of the Periodical Assessment is to verify that the conditions for the Type Approval are not altered since the Type Approval Certificate was issued.

In cases where the Type Approved product is manufactured at other companies, the Periodical Assessment shall verify that the Type Approval applicant has a quality control system for consistent production at their licensees/subcontractors. Furthermore, Periodical Assessment shall be carried out randomly at these companies.

When a Type Approved product is manufactured at other companies, the Type Approval applicant takes the sole responsibility for the conformity of the product to the applicable requirements.
