

TYPE APPROVAL CERTIFICATE

This is to certify:

That the Pneumatic Actuator

with type designation(s)

EB5.1, EB6.1, EB8.1, EB9.1, EB10.1, EB12.1, EB14.1, EB16.1, EB18.1, EB20.1, EB22.1, EB26.1,

Issued to

EBRO Armaturen Gebr. Bröer GmbH
Hagen Nordrhein-Westfalen, Germany

is found to comply with

DNV GL rules for classification – Ships Pt.4 Ch.6 Piping systems

Application :

All pneumatic actuator types single acting (SYS) or with manual override

Products approved by this certificate are accepted for installation on all vessels classed by DNV GL.

Type

EB5.1, EB6.1, EB8.1, EB9.1, EB10.1, EB12.1, EB14.1, EB16.1, EB18.1, EB20.1, EB22.1, EB26.1

Dsgn. press./Torque

see manufacturer's data sheet

Issued at **Høvik** on **2017-12-06**

This Certificate is valid until **2022-12-05**.

for **DNV GL**

DNV GL local station: **Essen**

Approval Engineer: **Guido Friederich**

.....
Olaf Drews
Head of Section

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

Product description

Pneumatic single acting actuators.

Materials

Actuator cylinder	EN AW 6063-T6 / 3.3206
Piston	EN AC-Al Si9Cu3(Fe)
Spring	FD Si Cr / EN 10270-2
End cover	EN AC-Al Si9Cu3(Fe)
Drive shaft	16 Mn Cr 5 / 1.7131
Yoke	16 Mn Cr 5 / 1.7131

Application/Limitation

Approved for application on remote operating butterfly valves

The selection of a suitable actuator for a specific valve type including operation and service conditions shall be carried out according to the technical instructions of the manufacturer.

Type Approval documentation

Tests carried out

- Pressure test. Test pressure in amount of 1,5 times the design pressure
- Functional test

Marking of product

For traceability to this type approval the products are to be marked with:

- Manufacturers name or trade mark
- Actuator type designation,
- Size
- Mode of action [single acting or double acting]
- Operating pressure

Periodical assessment

A condition for retention of the Type Approval Certificate in its validity period is that periodical assessments are successfully carried out.

The objective of the periodical assessment is to verify that the conditions for the type approval have not been altered.

The main scope of the periodical assessment will normally include:

- Verification of the TA applicant's production and quality system w.r.t ensuring continued consistent production of the type approved products at the TA applicant's own premises and at other companies that are given the responsibility for manufacturing of the products.
- Review of the TA documentation and that this is still used as a basis for the production
- Review of possible changes to the design, the material and the performance of the product
- Verification of the product marking
