Application/Limitation

This tank container is not approved for transport of any dangerous goods and this This must be included in each product certificate.

Dynamic longitudinal impact test has not been performed therefore the design does not fully comply with test requirements in ISO 1496-3. In addition, stacking load values are reduced.

Production tests to be carried out as required by DNV surveyor.

DNV surveyor has to witness important production and test events and issue Form no. CTC301 "Freight Container Certificate" for all containers.

Type Approval documentation

Tests carried out

Prototype VFL-TBC23-451 strength tested according to requirements.

Marking of product

Each container to be marked with:

- Data Plate according to CSC requirement including Allowable stacking load for 1.8g of 144000 kg and Allowable transverse racking force of 150 kN.
- External marking according to DNV / ISO 6346 requirements
- DNV decal for freight containers
- NV mark to be hard stamped on frame

Periodical assessment

In order to maintain the validity of the type approval certificate, periodical assessments should be carried out according to DNVGL-SE-0284 at 2 and 3.5 year intervals. Periodical assessments will, when possible, be harmonized with other surveys and audits carried out.
